10	Kyoto University of the Arts	Japan

Recently, the US Animation Career Review officially released the top 50 International Animation Schools in 2024 (excluding US schools) and the top 10 Asian Animation Schools in 2024.

Jilin Animation Institute(JAI) ranks 44th in the world (excluding US schools) and 9th in Asia. This is the second time that JAI has entered this ranking, the ranking criteria is based on seven indicators: academic reputation, admission standards, employment data, depth and breadth of faculty, and graduation rate. Entering the ranking again proves that the school's educational achievements and professional capabilities have been recognized by the international industry, and the influence of the animation major in international universities has continued to increase, which also confirms the achievements of our school in the training of animation talents.

JAI has always adhered to the three characteristics of "Openness and International Orientation , Integration of Education, Research and Industry; Technicalization of Creative Products". Up to now, the school has established cooperative relations with more than 150 colleges and universities in 31 countries and regions around the world, invited more than 600 global industry experts to the school as visiting professors.
